

## 22 Independent Resurvey of the 7th Standard Parallel North, through R. 18 E.

Chains

and raise a mound of stone, 2 ft. base,  $1\frac{1}{2}$  ft. high, E. of cor.

A juniper tree, 6 ins. diam., bears N.  $65^{\circ} 50'$  E. 120 lks. dist., mkd. T 36 N R. 18 E S 32 C C B T.

Land, mountainous, E. 54.70 chs. with a S. and W. exposure balance with an E. exposure. Soil, heavy clay and adobe loose lava rocks on surface and imbedded some exposed ledges of volcanic formation. Undergrowth, sagebrush, bunch grass and deer browse. Scattered growth of juniper timber.

## Dependent Resurvey of the East Boundary of T. 36 N., R. 18 E.

Note: Owing to excessive length per mile on the E. Bdy. of Tp. 36 N., R. 18 E., which is identical with the W. Bdy. of T. 36 N., R. 19 E. and in order to base the independent subdivisions of T. 36 N., R. 18 E. on this Bdy. I reestablish this line as follows: Using the old alignment and set cors. at 40.00 and 80.00 chs. distances for secs. in R. 18 E. only. Further reestablish all old corners found at their original positions and all missing corners at proportional distances to those of the original survey, and mark these for corners for R. 19 E. only.

From the reestablished standard cor. of Tps. 36 N., Rs. 18 and 19 E., heretofore described,

North, on a true line, on E. Bdy. of sec. 36.

Over mountainous land, desc. steep and rocky NW. slope, few scattering junipers.

25.00 Descend along westerly slope, leave scattering timber.

40.00 Set an iron post, 3 ft. long, 1 in. diam., 26 ins. in the ground, for the  $\frac{1}{4}$  cor. of sec. 36, with brass cap mkd.
