

Retracement of the W. boundary of T. 43 N., R. 51 E.

Chains

From the cor. of secs. 1, 6, 7 and 12, T. 43 N., Rs. 50 and 51 E., which is a iron post, 2 ins. in diam., 26 ins. in the ground, marked and witnessed as described by the surveyor general.

390.56

S. $0^{\circ}03'W.$, on blank line, on W. boundary of Township.

Run 2.74 chs. E. of the temp. point, for the cor. of Ts. 42 and 43 N., Rs. 50 and 51 E., which is North 480.00 chs. dist. from the cor. of Ts. 41 and 42 N., Rs. 50 and 51 E.

A true line, between the cor. of secs. 1, 6, 7 and 12, T. 43 N., Rs. 50 and 51 E., and the cor. of Ts. 41 and 42 N., Rs. 50 and 51 E., bears S. $0^{\circ}12'W.$

In order to determine the position of the cor. of Ts. 42 and 43 N., Rs. 50 and 51 E. for N. and S. distances, I proceed as follows:

As the original distance between cor. of secs. 1, 6, 7 and 12, T. 43 N., R. 50 and 51 E., and Cor. of Ts. 41 and 42 N., Rs. 50 and 51 E. is -----880.00 chs.

Is to the new measured distance between same
cors. -----870.56 "

So the original dist. of W. bdy. of T. 42 N., R. 51 E. -----480.00 "

To the required dist. of W. bdy., of T. 42 N., R. 51 E. -----474.85

I now move the temp. point, 1.69 chs. E., and S. $0^{\circ}12'W.$, 5.15 chs. dist.

Retracement of the N. boundary of T. 42 N., R. 50 E.

I proceed to the cor. of secs. 5, 6, 31 and 32, Ts. 42 and 43 N., R. 50E. This cor. is described by the Surveyor General for Nevada as follows:-

80.00 Set a charred post in mound with pits as per instructions for cor. to secs. 5, 6, 31 and 32.

I find this cor. to consist of a partially decomposed wood post which has the appearance of great age,
