

INVESTIGATION SURVEY, GROUP 69, NEVADA.

field note record as returned by Deputy Maxson, I am of the opinion that this is the official corner monument for the $\frac{1}{4}$ sec. cor. of sec. 12.

$\frac{1}{4}$ Sec. 1 on E. bdy of T. 31 N., R. 33 E. A quartzite rock, 16x8x8 ins. in a mound of stone, mkd. " $\frac{1}{4}$ " on W. face. This is the corner referred to in Special Agent Doyle's report as being 424 ft. N. 2° W., of the cor. of secs. 6 and 7 hereinafter described. Diligent search was made for the $\frac{1}{4}$ sec. cor. established by Deputy Maxson. Determining the point for this $\frac{1}{4}$ cor. by the tie to Mineral Survey No. 4293, I find that the topography north and south checks very closely with Deputy Maxson's records, also that this point, which is directly over a pipe line, was disturbed during the laying of the pipe line. It is my belief that the marked stone for the $\frac{1}{4}$ sec. cor. of sec. 1 was established as recorded By Deputy Maxson and that this original position may be accurately re-determined by the tie to Cor. No.1, M.S. No. 4293 as given by U.S. Deputy Mineral Surveyor R.E. Tilden.

C.C. of secs. 1 and 6.

By Maxson in 1893.

Limestone, 15x12x10 ins., mkd. "CC" and 6 grooves on S. face, and 6 grooves on E. and W. faces. This cor. was found in bed of small ravine at a point directly below and about 1 chain distant from the old mound of stone, most of the stones of which are firmly settled in the soil. From this mound of stone the cor. established by Deputy Criss bears N. 39° 30' E., 2.58 chs. distant.

By Criss in 1901.

Limestone, 6x8x8 ins. above ground in a mound of stone, mkd. 6 grooves on E. and W. faces and "CC" and 6 grooves on S. face.

SEVENTH STANDARD PARALLEL THRU RANGE 34 EAST.

Std. $\frac{1}{4}$ Sec. 31. Granite rock, 18x14x8 ins. in a mound of stone, mkd. $\frac{1}{4}$ SC on N. face. Diligent search was made for additional corners in this vicinity.

Std. cor. of secs. 32 and 33. Limestone, 16x12x6 ins. in a mound of stone, mkd. "SC" on N. face, 2 grooves on W. and 4 grooves on E.

Std. $\frac{1}{4}$ Sec. 33. A mound of stone on steep hillside. No marked stone found.
