

Subdivision of T. 44 N., R. 53 E.

CHAINS

The mean bearing of the S. bdy. of T. 44 N., R. 53 E., is S.89°50' W. which is also the calculated course of a governing section line initiated at the cor. of secs 25, 30, 31 and 36 on the E. bdy. of the Tp.

Random Line.

From the cor. of secs. 25, 30, 31 and 36 on E. bdy. Twp. S.89°50' W., true course, random for distance only, bet. secs. 25 and 36.

40.00 Set temp. $\frac{1}{4}$ sec. cor.

80.00 Set temp. sec. cor.

Subsequently, at a point 16 lks. W., establish the cor. of secs. 25, 26, 35 and 36. The length of this line is 80.16 chs.

From temp. sec. cor., S.89°50' W., bet. secs. 26 and 35,

40.00 Set temp. $\frac{1}{4}$ sec. cor.

Subsequently, set $\frac{1}{4}$ sec. cor. at a point 17 lks. W.

80.00 Set temp. sec. cor.

Subsequently, set sec. cor. at a point 18 lks. W. The length of this line is 80.02 chs.

From temp. sec. cor., S.89°50' W., bet. secs. 27 and 34,

40.00 Set temp. $\frac{1}{4}$ sec. cor.,

Subsequently, set $\frac{1}{4}$ sec. cor. at a point 30 lks. W.

80.00 Set temp. sec. cor.

Subsequently, set sec. cor. at a point 42 lks. W. The length of this line is 80.24 chs.

From temp. sec. cor., S.89°50' W., bet. secs. 28 and 33,

40.00 Set temp. $\frac{1}{4}$ sec. cor.

Subsequently, set $\frac{1}{4}$ sec. cor. at a point 37 lks. W.

80.00 Set temp. sec. cor.

Subsequently, set sec. cor. at a point 32 lks. W. The length of this line is 79.90 chs.

From temp. sec. cor., S.89°50' W., bet. secs. 29 and 32,
