Metes and bounds survey of lots 3,4, and 5, of sec. 5,

	Chains	Tract segregations of lots 3, 4 and 5, of sec. 5, 1800
	firmly	T.35N.,R. 18 E. were made necessary by reason of exist-
	aft, al B	ing irregularities between the Carside and the Benson
	-retni	and Putnam surveys, and the obliteration or absence of
9		all physical evidence on the ground of the Garside sur-
	eni SI.	veys. These lots were located with reference to the tie
	end EB,	from the original Garside closing corner of Ts. 35 and 36
		N. R. 18 E., to the 72nd mile post on the Nevada-Califor-
		nia State Line. Mr.Edward P.Waltz, representative of the
10 1 10 1 10 1		Gerlach Live Stock Co., claimants, was consulted when these
b	s. narko	claims were surveyed. Acceptable locations with reference
		to the Garside tie to the 72nd mile corner on the Nevada-
	n n	California boundary line, and also with reference to ex-
	- y	istent subdivision corners in T.35N., R.18E., were pointed
	rasa.	out on the ground, but were not acceptable to the Gerlach
		Live Stock Co. Mr. Waltz was advised to inform the Gerlach
	for row	Live Stock Co. of the results of the segregation so that
4		if a protest were to be made, it could be so done in writ-
		ing. Nothing has been heard from the claimants to date.
