## GENERAL DESCRIPTION

This township is situated on the western slope of the Quinn Canyon Mountains which are a portion of the Granite Range, and is rough and rugged in the east and southeast portions; with gently rolling bench lands sloping from the base of the mountains to nearly level desert lands in the western and northwest part of the township. The general exposure and drainage is northwest into Railroad Valley which comprises the northwest part of the township. The nearest towns of any importance are Ely, Nevada to the north and Tonopah, Nevada to the southwest, which are about 100 miles distant in either direction. The post-office of Nyala, Nevada, is located in sec. 31, T.5 N., R.56 E.

The mountainous land is steep, rocky and broken by three deep canyons, viz: Willow Creek, Big Creek, and Deep Creek Canyons. These canyons have a general north-westerly course with numerous small gulches and
