

SUBDIVISION OF T. 13 N., R. 31½ E.

Chains

- S. 0° 02' W., on true line, bet. secs. 1 and 2,
Over rolling to hilly land thru medium dense low under-
growth.
Desc. 280 ft. over broken S. slope.
- 14.60 Draw, drains W. Old mine road in bottom of draw, bears
E. and W.
Continue over rolling W. slope.
- 33.00 Draw, drains N. 30° W., asc. 100 ft. over NE. slope.
- 40.06 Set an iron post, 3 ft. long, 1 in. diam., 24 ins. in the
ground, for $\frac{1}{4}$ sec. cor., with brass cap mkd.
- $\frac{1}{4}$
S2 | S1
1937
- raise a mound
- of stone, 3 ft. base, 1½ ft. high, W. of cor.
- Continue ascent of 150 ft. over broken N. slope.
- 45.50 Spur, slopes NW., desc. 120 ft. over SW. slope.
- 61.00 Draw, drains N. 70° W. Old mine road in bottom of draw,
bears N. 70° W. and S. 70° E., asc. 110 ft. over NE.
slope.
- 68.90 Spur, slopes N. 30° W., desc. 80 ft. over S. slope.
- 71.80 Draw, drains W., asc. 100 ft. over N. slope.
- 80.06 The cor. of secs. 1, 2, 11, and 12.
- Land, broken hilly.
Soil, shallow coarse rocky loam, 3rd rate.
Undergrowth, shadscale, greasewood.
No timber.
Grazing, fair to good.

GENERAL DESCRIPTION

This fractional township is mountainous; the elevation varies from about 4700 ft. in the extreme southeastern portion to 6600 ft. on "Pilot Cone", a prominent volcanic cone situated in the SW $\frac{1}{4}$ of Sec. 13. A Coast and Geodetic Survey station - "Pilot Cone" - is on the highest point of this mountain; the published geographic position is: Latitude, 38° 59' 18.46" N., Longitude, 118° 26' 08.88" W.

The soil varies from a medium fine gravelly loam in the bottoms of the draws to a coarse rocky loam on the slopes. A medium dense stand of low desert-type undergrowth; shadscale, greasewood, sagebrush, etc., is found over the entire area. There is no timber. This area may be classed as being slightly below average for grazing purposes. There is no water in the township.

Some mining, during the period 1908-1910, had been done in portions of sections 1 and 12 but at the time of the survey, no activity was noted. A small group of frame mining buildings is situated in the central part of the SE $\frac{1}{4}$ of Sec. 1 and another small group of buildings is situated in S $\frac{1}{2}$ of the SW $\frac{1}{4}$ of the same section. USLM #217 is situated in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 12.
