From point of intersection, the standard cor. secs. 31 and 32, bears E., 3.51 chs. dist., an iron post, 2 ins. diam., firmly set, marked and witnessed as described in the official record.

Land, rolling.

Soil, sandy; 3d rate.

Undergrowth, rabbit brush, shadscale, greasewood.

No timber.

Grazing, fair.

General Description

This line crosses rolling to broken mountainous dry desert terrain. Drainage is southwesterly for the south mile; for the balance of the line, drainage is generally north.

There are no springs, water holes or settlements nearby. A primitive desert road, in very poor condition, is the only means of access to this immediate area.
