raise a mound

of stone, 2 ft. base, $1\frac{1}{2}$ ft. high, S. of cor.

From this point the cor. of Tps. 26 and 27 N., Rs. 51 and 52 E., bears S. $89^{\circ} 43'$ W., 5.59 chs. dist.

Final Test of Solar Attachment.

Nov. 16, 1939. This survey being completed, the instrument used was tested upon the meridian established on October 13, 1939 and described on page 1 of these notes, and found to be in satisfactory adjustment.

General Description.

Township 26 North, Range 52 East, is situated about midway between Carlin, Nevada on U.S. Highway No.40, and Eureka, Nevada, on U.S. Highway No.50. It is reached by an improved gravel road from both. The deserted mining town of Mineral Hill is located in section 3.

The land is mostly rolling, generally draining westward. Table Mountain extends southerly through secs. 20, 29, 32 and 31 with an elevation of about 6800 ft. above sea level. The lowest point is found at the NW.cor. of the Tp. at an elevation of 5630 ft.

The soil is rocky clay, 3rd rate and supports a fair growth of cold weather grasses.

Scattering pine, cedar and juniper cover the township, while the undergrowth consists of sagebrush, with a few willows and alderbrush along the watercourses.

Mining has been the main industry, but grazing can be carried on successfully.

There are no settlers within the township.
