

SUBDIVISION OF T. 30 N., R. 26 E., M. D. M.

Chains

The point for the N. $\frac{1}{4}$ sec. cor. of sec. 5 is at midpoint, and on the 6th. Standard Parallel North.

At the corner point.

Set an iron post, 3 ft. long, 1 in. diam., 28 ins. in the ground, with brass cap mkd.

$\frac{1}{4}$ S 5

1947

raise a mound of stone, $2\frac{1}{2}$ ft. base, $1\frac{1}{2}$ ft. high, S. of cor.

From this cor. the stan. $\frac{1}{4}$ sec. cor. of sec. 32, T. 31 N., R. 26 E., which is monumented with an iron post, 1 in. diam., set, mkd. and witnessed as described in the field notes of the Independent Resurvey of the 6th. Stan. Par. N., through R. 26 E., bears West, 10.745 chs. dist.

The point for the N. $\frac{1}{4}$ sec. cor. of sec. 6 is 40.00 chains from the NE. cor. of sec. 6 and on the 6th. Standard Parallel North.

At the corner point.

Set an iron post, 3 ft. long, 1 in. diam., 28 ins. in the ground, with brass cap mkd.

$\frac{1}{4}$ S 6

1947

raise a mound of stone, $2\frac{1}{2}$ ft. base, $1\frac{1}{2}$ ft. high, S. of cor.

From this cor. the stan. $\frac{1}{4}$ sec. cor. of sec. 31, T. 31 N., R. 26 E., which is monumented with an iron post, 1 in. diam., set, mkd. and witnessed as described in the field notes of the Independent Resurvey of the 6th Stan. Par. N., through R. 26 E., bears West, 10.71 chs. dist.

GENERAL DESCRIPTION

T. 30 N., R. 26 E. is situated on the E. side of a wide rolling desert valley with a general elevation of 4000 ft. above sea level. Part of the NE. portion of the Tp. extends up the SW. end of The Lava Beds.

The soil of the Tp. ranges from sandy loam to sandy with low knolls of loose sand in the northern portion and gravelly to rocky soil in the foot hills.

The general drainage of the Tp. is south into a dry lake in T. 29 N., R. 26 E.

The area is covered with a uniform growth of low shadscale with sagebrush along the many small washes. There is some grass which, with the scattered white sage, and annual plants affords a nominal amount of grazing.

The only water within the Tp. is a well and windmill in the SW $\frac{1}{4}$ sec. 18, a very small spring in the SE $\frac{1}{4}$ sec. 1 and a seep in the NE $\frac{1}{4}$ sec. 12.

There are no patented mineral claims in the Tp. Present
