	Land, nearly level. Soil, gravelly. Timber, none; undergrowth, creosote brush, yucca and joshua trees.
	General Description
	T. 19 S., R. 59 E. is a nearly level desert country except for the southwest quarter, which is rough and mountainous. The elevation runs from about 2690 ft. along the east side to 6000 ft. above sea level in the southwest quarter.
	The soil is mostly gravel with limestone stratas. The vegetation consists mostly of creosote brush, cacti, yucca and joshua trees, with some scattered pinon and juniper in the higher elevations.
