Soil, sandy loam. Vegetation, thick sagebrush.</p>
	<p>GENERAL DESCRIPTION</p> <p>The land within this township is level to nearly level, except the west boundary of surveyed sections which are large rolling hills on gradual east slope. The drainage is in a general southeast direction. The elevation in the valley is about 4200 ft. above sea level.</p> <p>The soil is a medium sandy loam, with a heavy growth of sagebrush, except the hills which are sandy gravel with rocks. There is one main road which bears east and west along the south boundary of secs. 10, 11 and 12, and several secondary roads bearing in and northerly and southerly direction in the east half of the township.</p>
