## Remonumentation of Corners, T. 12 N., R. 42 E., M.D. Mer.

The north, south, and west boundaries and a portion of the subdivisional lines were surveyed by Hatch, Barker and Bridges in 1873. The east boundary was surveyed by Tracy in 1867.

The following field notes are those of the remonumentation of certain identified original corners in T. 12 N., R. 42 E., M.D. Mer., Nevada. The position of each corner was marked by the original monument, or determined from corner accessories recorded in the original survey record.

The corners remonumented were selected by the Forest Service as being adjacent to, or controlling the boundaries of Forest Service Lands. The remonumentation was requested by and accomplished in cooperation with the Forest Service.
