

DEPENDENT RESURVEY, T. 44 N., R. 28 E.

15

CHAINS

GENERAL DESCRIPTION

The land surveyed within this township varies from mountainous to nearly level along Alder Creek in sections 3 and 10. This part of the Tp. is drained Northerly by Alder Creek of which Little Alder Creek and Wood Canyon are tributaries.

Alder Creek Ranch is located in section 10. Principal users of the area are cattlemen and a portion of section 2 and 3 is under cultivation. The soil is sandy clay and quite rocky on the mountains. The only timber is quaken aspen along the creeks.

Access into the Tp. is provided by desert roads.

No mineral formations of consequence were noted during the survey.
