

Retracement of a Portion of the Von Schmidt
California-Nevada State Line.

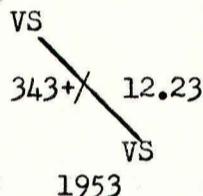

Chains

There are two surveys of the diagonal boundary between California and Nevada. The original survey was made by A. W. Von Schmidt in 1873 and an independent resurvey of same was made by the Coast and Geodetic Survey in 1898-99. The surveys of exterior and subdivisional lines of townships adjacent to the Von Schmidt State boundary were brought to closings thereon. The new state boundary is SW. of the Von Schmidt line hereinafter described so it now becomes necessary to extend Nevada surveys southerly and westerly to new closings; and to terminate California Surveys at new closings. Disposals made in fractional California sections prior to the adoption of the new state boundary are now delineated by metes and bounds surveys.

The triangulation station at 343 miles +12.23 chs. on the Von Schmidt line is monumented with the remains of a post in center of a mound of stone, 4 ft. base and 1 ft. high.

At the true point

Set an iron post, 30 ins. long, $2\frac{1}{2}$ ins. diam., 10 ins. in the ground to bedrock, with brass cap mkd.

Rebuild the mound of stone, 4 ft. base, around post to top.

This point is on a prominent spur, slopes NE.

S.47°58'E., on tangent and true line.

Descend 760 ft. on SE. slope, rocky, no undergrowth.

35.30 Gulch, course E.; ascend 165 ft.

44.40 Spur, slopes E.; descend 725 ft.

59.33 Proportionate point for clos. cor. of secs. 16 and 21, T. 3 S., R. 35 E., California; find no evidence of orig. cor.

78.30 Gulch, course NE.; ascend 340 ft.

86.70 Spur, slopes NE.; descend 180 ft.

91.19 Proportionate point for clos. cor. of secs. 21 and 22, T. 3 S., R. 35 E., California; find no evidence of orig. cor.

104.10 Ravine, course NE.; ascend 125 ft.

108.80 Spur, slopes NE.; descend 190 ft.

116.80 Side ravine, course NE.; at foot of mountainous land; asc. 25 ft.

118.20 Descend 65 ft. over rocky bench.

132.33 Point for the closing cor. of secs. 16 and 17, T. 3 S., R. 35 E., Nevada, at proportionate distance; find no evidence of the original cor.

Set an iron post, 30 ins. long, $2\frac{1}{2}$ ins. diam., 20 ins. in the ground, with brass cap mkd.
