Bdy. of T. 8 N., R. 46 E., was partially surveyed with corners established thereon for R. 46 E. only; in 1931 under group No. 168 Nevada. As these corners on the north portion of this boundary are out of position for the adjoining T. 8 N., R. 45 E., it was necessary to establish new corners on this boundary at regular intervals of 40 and 80 chains to refer and stand for T. 8 N., R. 45 E. only.</p>
