

Portion of the Boundaries, T. 8 N., R. 61 E.

Chains

The south, west and north boundaries of the township were surveyed by E. B. Monroe, Deputy Surveyor, in 1871.

The following field notes are those of a retracement of the west two miles of the south boundary and of the west two miles of the north boundary, with remonumentation of identified original corner positions. only, and dependent resurvey of the west boundary.

For description of instrumental equipment, Polaris observation, and method of determination of distances and directions, see field notes of the retracement and dependent resurvey of the boundaries of T. 7 N., R. 60 E., executed concurrently under this same survey group.

The geographic position of the SW. corner of the township, determined from the official Bureau of Land Management map of Nevada, is latitude 38° 30' 30" N., and longitude 115° 10' 30" W.

Portion of the South Boundary, T. 8 N., R. 61 E.

Retracement and reestablishment of identified original corner positions only, on the W. 2 miles of the S. Bdy. of T. 8 N., R. 61 E., surveyed by E. B. Monroe, Deputy Surveyor, in 1871.

The cor. of secs. 4, 5, 32 and 33, Ts. 7 and 8 N., R. 61 E. is marked by a juniper post, 2 ins. square, 3 ft. long, mkd. TVIIN RLXIE SIV on one face, SV on an adjacent face, illegible marks on other two faces, fallen on an old mound of earth between very faint evidence of pits.

At the corner point

Set an iron post, 30 ins. long, 2½ ins. diam., 26 ins. in the ground, with brass cap mkd.
