Chains

A boulder, $4 \times 6 \times 6$ ins., with small mound of stone on top, bears S. 04° E., 2.50 chs. dist., mkd. X BO. (This is an accessory marked in the original survey).

This corner is visible from a point 80 chs. to the North; from a point 160 chs. to the West; from a point 2 chs. to the South; and from a point 20 chs. to the East.

The cor. of secs. 15, 16, 21 and 22 is marked by a limestone, $12 \times 12 \times 26$ ins., set 12 ins. in the ground and in a mound of stone, and marked with 3 grooves each on S. and E. faces.

At the corner point

Set an iron post, 3 ft. long, 2 ins. diam., 24 ins. in the ground, and in a mound of stone 5 ft. base, to top, with brass cap mkd.

from which

Old fence corner, from which fences bear W. and S. 10° E., bears S. $12\frac{1}{2}^{\circ}$ W., approximately 1.00 ch. dist.

Line bet. secs. 15 and 22, bears S. 88° 54' E.

Forest Service triangulation station "Dixie", bears N. 36° 08' W.

Forest Service triangulation station "Babbitt", bears N. 84° 58' W.

Forest Service triangulation station "Crystal", bears S. 28° 26' W.

U.S.C.&G.S. triangulation station "Mt. Rose", bears S. 06° 50' E.

Bury the old corner stone alongside the iron post.

General Description

This township lies a few miles to the northeast of Reno, Nevada, and lies generally on a spur ridge running eastward from the main chain of the Sierra Nevada Mountains. All drainage of the township leads to the Truckee River. The lower slopes are fairly well covered with sagebrush and kindred desert vegetation, while the higher slopes reach up into the Sierra timber belt, where timber of pine and fir is to be found in scattering stands, located mainly on north slopes.
