

TOWNSHIP 17 NORTH, RANGE 61 EAST

CHAINS	
	<p>The geographic position for the SE. cor. of the Tp. as determined from the data furnished with the special instructions is latitude $39^{\circ} 17' 19.736''$ N., and longitude $115^{\circ} 02' 41.032''$ W.</p>
	<p>The magnetic declination was read at a number of stations throughout the survey and the average of the readings was found to be $16\frac{1}{2}^{\circ}$ E.</p>
	<p>Dependent Resurvey of the North Boundary, T. 16 N., R. 61 E.</p>
	<p>Partial Re-establishment of the Survey Executed by W. N. McGill, Deputy Surveyor, in 1878.</p>
	<p><u>Note:</u> Since both the south and east boundaries of T. 17 N., R. 61 E., are known to be out of allowable limits in alignment and distance, the special instructions provided the township would be surveyed from west to east, with a sectional correction line run East, from the cor. of secs. 25, 30, 31 and 36, on the west boundary of the Tp., to an intersection with the east bdy. where a closing corner would be established with fractional measurement in the last half mile adjacent to the south, east and north bdrs.</p>
	<p>The north bdy. of T. 16 N., R. 61 E., was originally surveyed as a common bdy. of maximum control, but due to the known discrepancy, the corners as originally established, will no longer serve as corners for T. 17 N., R. 61 E. Therefore, the new monuments at all recovered and proportionate corner positions are marked for sections of T. 16 N., R. 61 E., only. Corners for T. 17 N., R. 61 E., are established along this line at 40.00 and 80.00 chain intervals, counting from the corner of Tps. 16 and 17 N., Rs. 60 and 61 E.</p>
	<p>From the cor. of Tps. 16 and 17 N., Rs. 60 and 61 E., monumented with an iron post, $2\frac{1}{2}$ ins. diam., firmly set, mkd. and witnessed as described in the final returns of the Dependent Resurvey of the east bdy., T. 17 N., R. 60 E., executed concurrently with this survey.</p>
	<p>S. $88^{\circ} 52'$ E., on the N. bdy. of sec. 6.</p>
	<p>Over heavily rolling mountainous land, through medium heavy undergrowth; asc. 370 ft. over steep W. slope.</p>
19.70	<p>Top of ridge, bears N. 20° W. and S. 20° E.; desc. 190 ft. over an E. slope.</p>
34.70	<p>Bottom of descent; ravine, drains NE., begin ascent; asc. 40 ft. over NW. slope.</p>
38.20	<p>Top of ascent, slopes N.; desc. 40 ft. over an E. slope.</p>
38.39	<p>Point for the N. $\frac{1}{4}$ sec. cor. of sec. 6, at proportionate distance; there is no remaining evidence of the original corner.</p>
	<p>Set an iron post, 36 ins. long, 1 in. diam., 2 ins. in the ground, to solid rock and in a mound of stone to top, with brass cap mkd.</p>
