

CHAINS

General Description

Township 18 South, Range 66 East is located about 14 miles southwest of Overton, Nevada.

Sections 1, 2, 3 and 4 are traversed by Nevada State Highway 40, which winds irregularly west-northwest, and east-southeast. Sections 11 and 12 are inaccessible to vehicles.

The Northeast part of section one extends into the Valley of Fire and is comprised of sandy gravel and exposed red sandstone formations. All of section 11 and 12 and portions of sections 1, 2, 3 and 4 are very rough limestone formations of the Muddy Mountains Range. Soil where existent is sandy gravel.

Vegetation consists of scattered cactus, creosote bush, and bunch grass, there is no timber. No mineral deposits or water sources were noted. General drainage is to the east. Elevation varies from about 2400 ft. to 4100 ft.

There are no settlers in the area.
