

DEPENDENT RESURVEY, T. 14 N., R. 64 E.

CHAINS

The following field notes are those of the dependent resurvey of the exterior and the subdivisional lines of Township 14 North, Range 64 East, Mount Diablo Meridian, Nevada.

Exterior and subdivisional lines were surveyed by Monroe and Bateman, Contract 48, in 1872.

The resurvey was requested by the State Director to provide identification of the boundaries of public land to facilitate administration under the appropriate land laws.

Before restoring the corners, the lines of the original survey were retraced and diligent search made for any evidence of the original corners and other calls of the original field note record.

The rules of proportionate measurement were applied in order to ascertain the position of lost corners, after completing the necessary retracement to connect with the identified corner locations. In order to simplify the record, the true line notes **only** are supplied herewith, which refer to the completed resurvey.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1947, and the Special Instructions dated February 11, 1964.

The direction of the lines of the survey were determined by altitude observations on the sun. The lines were carried forward by sustained angulation being supplemented by other altitude observations of the sun taken throughout the progress of the survey. The vertical angles of measurement made on the slope were ascertained by a clinometer in good adjustment; the horizontal equivalents only are entered in the field notes.

The geographic position of the SE. cor. of the Tp. is at latitude $39^{\circ} 01' 32.5''$ N., and longitude $114^{\circ} 43' 25.7''$ W. as adjusted along section lines from station WPA 081 of the Nevada Planning Dept. of the Nevada Highway Dept. located in sec. 1 of T. 13 N., R. 64 E.

The magnetic declination was read at a number of stations throughout the township and the average of these readings was found to be 17° east.

DEPENDENT RESURVEY OF THE E. BDY., T. 14 N., R. 64 E.,
MOUNT DIABLO MERIDIAN, NEVADA

Re-establishment of the Survey Executed by
Monroe and Bateman, Deputy Surveyors,
in 1872.

Beginning at the cor. of Tps. 13 and 14 N., Rs. 64 and 65 E., monumented with a wooden post, 2x2x30 ins., firmly set, and plainly mkd. with 6 notches on the N., E., S. and W. faces.

At the corner point
