The standard cor. of secs. 35 and 36, bears N.  
89° 52' W., 9.06 chs. dist.

The standard  $\frac{1}{4}$  sec. cor. of sec. 36, bears S.  
89° 52' E., 31.09 chs. dist.

## GENERAL DESCRIPTION

The land within Township 40 North, Range 42 East, ranges from about 4500 to 6000 ft. above sea level. The south-east portion of the township is low mountainous, and the remainder of the township is rolling to nearly level desert land.

The soil varies from sandy clay and rocky on the mountainous to sandy clay loam on the lower elevations. The vegetation consists of shadscale, budsage, sagebrush, and sparse native grasses. The area drains northerly toward the Little Humboldt River. There is no timber and no mineral formation of consequence was noted during the survey.

Principal users of the area are cattlemen, and access into the township is provided by trail roads. There are no settlements within the township.
