GENERAL DESCRIPTION							
<p>Township 16 North, Range 34 East, M.D.M., is located about 40 miles ESE. of Fallon, Nevada. Access is provided by U. S. highway No. 50, near the North boundary of the township, and several trail roads.</p> <p>Elevation varies from about 4400 to 7900 ft. above sea level. The terrain ranges from nearly level to mountainous. The soil is principally clay alluvium and is rocky. Vegetation is comprised of sagebrush, shadscale, greasewood and numerous grasses. There is juniper and pinon timber on the steep east slopes of Fairview Peak.</p> <p>No natural or developed water sources were noted. There is evidence of mineral activity; several prospect holes were noted. A prominent earthquake fault, occurring in 1954, is evident intermittently through the portion surveyed from North to South.</p> <p>There are no residents in the township.</p>
