	<p>reset the original cornerstone alongside the iron post.</p> <hr/> <p>N. 0° 54' W., beginning new measurement.</p> <p>Desc. 30 ft. over a N. slope.</p> <p>3.20 Draw, drains SE.; asc. 40 ft. over a SW. slope.</p> <p>9.00 Spur, slopes SE.; desc. 50 ft.</p> <p>17.50 Draw, drains SE.; asc. 120 ft. over a SW. slope.</p> <p>31.50 Ridge, bears SE. and NW.; desc. 50 ft. over a NE. slope.</p> <p>37.50 Draw, drains E.; asc. 10 ft.</p> <p>39.78 The cor. of secs. 5 and 6, on the N. bdy. of the Tp., monumented with an iron post, 2 ins. diam., set, mkd. and witnessed as described in the official record.</p> <p>Land, rolling. Soil, clay and gravel. Timber, juniper and pinon. Undergrowth, sagebrush and buck brush.</p> <hr/> <p style="text-align: center;">GENERAL DESCRIPTION</p> <p>Township 3 South, Range 70 East, is located about 10 miles ESE. of Panaca, Nevada. Access to the area is provided by Nevada State Highway No. 25 and a graveled road which traverses the township in a southeasterly direction. Union Pacific Railroad enters the township near the SE. cor. of section 12 and leaves near the SW. cor. of section 36. The elevation is about 6,000 ft. above sea level. The terrain varies from rolling to broken.</p> <p>The soil consists principally of a shallow heavy clay and gravel with rock outcroppings on the slopes. There is a dense growth of juniper and pinon timber covering the township. There are wells located in secs. 34 and 36. There is a stock-water reservoir situated across the line between sections 1 and 2. Sheep Spring is located in sec. 7, the tie to which is given in the field notes of T. 3 S., R. 69 E., resurveyed concurrently under this Group. No significant mineral formations were noted in the course of the resurvey.</p> <hr/>
