

TOWNSHIP 34 NORTH, RANGE 54 EAST

CHAINS

The following field notes are those of the dependent resurvey of the boundaries of section 12, T. 34 N., R. 54 E.

The east boundary was surveyed by U. S. Deputy Surveyor C. C. Tracy in 1868. The subdivisional lines bounding secs. 25, 35 and 36 were surveyed by U. S. Deputy Surveyors Alfred Craven and Jules Gignoux in 1878. The lines completing the subdivision were surveyed by U. S. Deputy Surveyor H. B. Maxson in 1896.

Before restoring the corners, the lines of the original surveys were retraced and diligent search made for any evidence of the original corners and other calls of the field note record.

Lines connecting the corner positions were run by the random and true method. In order to simplify the record the true lines notes only are supplied which refer to the completed survey.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions 1947, and the Special Instructions dated March 21, 1969.

The directions of the lines of this survey were determined by azimuth taken from USC&GS triangulation station KENO, located in sec. 16, T. 34 N., R. 55 E. The vertical angles of measurements made on the slope were ascertained by a clinometer in good adjustment; the horizontal equivalents only are entered in the field notes.

The geographic position for the southeast corner of section 12 is at latitude $40^{\circ} 50.5' N.$ and longitude $115^{\circ} 50.0' W.$ as scaled from USGS Quadrangle Map, Elko West, 1962, Nevada.

The mean magnetic declination was found to be $17\frac{1}{2}^{\circ} E.$

DEPENDENT RESURVEY OF A PORTION OF THE EAST BOUNDARY,
T. 34 N., R. 54 E., MOUNT DIABLO MERIDIAN, NEVADA.

Reestablishment of the Survey Executed by C. C. Tracy,
U. S. Deputy Surveyor in 1868.

The cor. of secs. 7, 12, 13 and 18 on the E. bdy. of the Tp., monumented with a redwood post, 30 ins. long, 4 ins. square, dimly scribed S7 and loosely set in a mound of stone.

At the corner point

Set an iron post, 28 ins. long, $2\frac{1}{2}$ ins. diam., 20 ins. in the ground, with brass cap mkd.
