

TOWNSHIP 35 NORTH, RANGE 39 EAST

CHAINS

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1947, and the Special Instructions dated May 13, 1971.

The direction of the lines of this survey were determined by altitude observations of the sun and carried forward by sustained angulations throughout the progress of the survey.

The vertical angles of measurements made on the slope were ascertained by a clinometer in good adjustment; the horizontal equivalents only are entered in the field notes.

The geographic position for the southeast corner of T. 35 N., R. 39 E., is at latitude $40^{\circ} 51' 27.5''$ N. and longitude $117^{\circ} 31' 37.8''$ W., as adjusted along section lines from the southeast corner of T. 36 N., R. 39 E., Mount Diablo Meridian, Nevada, the position of which was determined under Group No. 453.

The magnetic declination was read at a number of stations throughout the township and the average of these readings was found to be 18° east.

DEPENDENT RESURVEY OF THE EAST BOUNDARY,
T. 35 N., R. 39 E., MOUNT DIABLO MERIDIAN, NEVADA.

Reestablishment of the Survey Executed by
William Epler, U. S. Deputy Surveyor,
in 1867,
and Partially Resurveyed by
H. B. Maxson, U. S. Deputy Surveyor,
in 1895.

The cor. of Tps. 34 and 35 N., Rs. 39 and 40 E., monumented with a granite stone, 12x8x6 ins., plainly mkd. with 6 notches on the N., S., E. and W. edges, firmly set at fence cor. from which fences bear N. and W.

At the corner point

Set an iron post, 28 ins. long, $2\frac{1}{2}$ ins. diam., 22 ins. in the ground, with brass cap mkd.
