GENERAL DESCRIPTION	
<p>The land within Township 34 North, Range 43 East, is nearly level. The elevation ranges from about 4,420 to 4,920 ft. above sea level. The soil varies from sandy clay to sandy loam. The vegetation consists of shadscale, greasewood, rabbitbrush, saltgrass and willows along the Humboldt River. The township is drained by the Humboldt River which flows through the northeast portion of the township in a northwesterly course.</p>	
<p>The Western Pacific Railroad passes through the northeast portion of the township and the Southern Pacific Railroad and Interstate Highway No. 80 passes diagonally through the central portion of the township in a northwesterly and southeasterly direction.</p>	
<p>Water wells are located in secs. 16 and 20. A radio booster station is located in sec. 31. Ranches are located in secs. 10 and 16. The town of Valmy is located in sec. 27.</p>	
<p>Principal users of the area are cattlemen. Access is provided by Interstate Highway No. 80 and supplemented by several trail roads in the township.</p>
