

SURVEY OF TRACT 39,
T. 2 N., R. 69 E., MDM, NEVADA

CHAINS

GENERAL DESCRIPTION

The area surveyed and resurveyed within Township 2 North, Range 69 East, is mountainous. The elevation ranges from about 5,700 to 6,800 ft. above sea level. The soil varies from sandy loam along the creeks to gravel and limestone in the mountains. The vegetation consists of sagebrush and rabbitbrush. The timber consists of juniper and pinon.

Eagle Valley Reservoir is located in section 24; there are campgrounds in sections 24, 25 and 37. The town of Ursine is located in sec. 35.

Access into the township is provided by Nevada State Highway No. 85 and trail roads.

Principal users of the township are cattlemen, ranching, fishing, hunting and camping. No mineral formations of consequence were noted during the survey.
