set a steel fence post, 5½ ft. long, 22 ins. in the ground, alongside the iron post and raise a mound of stone, 3 ft. base, 2 ft. high, S. of cor.

From this corner, the original closing corner, identical with the Nevada Planning Division of the Nevada Highway Department station "NYB 110L," monumented with a basalt stone, 12x10x10 ins., mkd. with 6 grooves on W., E. and S. faces, CC 1S on E. face, 50E on W. face, 51E on E. face, and X on top, firmly set and exposed 6 ins. above ground, with a mound of stone S. of corner, bears N. 0° 16' E., 11.39 chs. dist.; add the marks AM to the top of the stone and leave the stone as found.

From this same corner, the standard corner of Tps. 1 N., Rs. 50 and 51 E., monumented with an iron post, 2½ ins. diam., firmly set in a mound of stone, with brass cap mkd as described in the field notes of the dependent resurvey of the Mount Diablo Baseline, through R. 50 E., resurveyed concurrently under this same group, bears S. 89° 45' E., 11.61 chs. dist.

GENERAL DESCRIPTION

The land along the range line surveyed varies from rolling and sandy clay loam at the N. end to mountainous and rocky in the S. end. The elevation ranges from about 6,500 to 8,000 ft. above sea level. The timber consists of juniper and pinon, and the vegetation consists of sagebrush and native grasses.

Principal users of the area are people in the cattle industry and the Air Force. Access is provided by a few rough trail roads. No mineral activity was noted during the survey.
