80.44	The cor. of secs. 5, 6, 32 and 37, on the N. bdy. of the Tp.
	<p style="text-align: center;">GENERAL DESCRIPTION</p> <p>The land within Township 36 North, Range 58 East, ranges from about 5,200 to 6,000 ft. above sea level and varies from rolling in the northwestern portion to nearly level along the river bottom with the remaining terrain being gently rolling. The soil varies from sandy clay loam on the higher elevations to sandy loam on the bottom land. The vegetation consists of sagebrush, crested wheatgrass and meadow grass. There are scattered stands of willow along the Humboldt River which enters the Township in sec. 12, flowing in a southwesterly direction and leaving in sec. 33.</p> <p>River Ranch is located in sec. 12 and Glaser Ranch is located in sec. 33. There are wells located in secs. 26 and 29.</p> <p>The Western Pacific Railroad passes through the southeast portion of the Township and the Southern Pacific Railroad and Interstate 80 passes diagonally through the central portion of the Township. A powerline crosses diagonally through sec. 36.</p> <p>Principal users of the area are cattlemen. No mineral formations of consequence were noted during the survey.</p>
