bury the cornerstone and set a steel fence post, 5 ft. long, 2 ft. in the ground, alongside the iron post and raise a mound of stone, 3 ft. base, 2 ft. high, E. of cor.

From this corner, the (Roberts) cor. of Tps. 1 and 2 S., Tps. 52 and 53 E., monumented with a lava stone, 10x8x6 ins., plainly mkd. with 6 grooves on the N. and E. faces, no other marks found, firmly set and exposed 6 ins. above the ground, with a steel fence post set alongside, bears S. 45° 53' W., 12.60 chs. dist. This corner is a tellurometer traverse station occupied under Group No. 389, Nevada and is at latitude 37° 48' 33.981" N. and longitude 116° 03' 55.476" W. Add the marks AM and bury the cornerstone 6 ins. below the surface of the ground.

GENERAL DESCRIPTION

The lines resurveyed within Township 2 South, Range 53 East, is nearly level to rolling. The elevation ranges from about 5400 to 6000 ft. above sea level. The soil varies from sandy clay to rocky. The vegetation consists of scattered sagebrush, rabbitbrush, greasewood and native grasses.

Access into the Township is provided by numerous improved and unimproved desert and trail roads.

Principal users of the area are cattlemen.

No mineral formations of consequence were noted during the resurvey.
