28.00	Slope changes, continue over rolling land.
39.68	The center S. 1/16 sec. cor. of sec. 3.
	<p data-bbox="685 1223 993 1255" style="text-align: center;">GENERAL DESCRIPTION</p> <p data-bbox="381 1284 1301 1384">The area surveyed is located in Butte Valley, about 12 miles west of Currie, Nevada. Access is by gravel and dirt roads.</p> <p data-bbox="381 1413 1301 1545">The land is mostly rolling with Taylor Canyon in the N<math>\frac{1}{2}</math> of the section forming a small valley. Taylor Creek flows northwesterly through this area. The elevation ranges from 6,650 feet to 7,150 feet above sea level.</p> <p data-bbox="381 1575 1301 1706">The soil consists of gravelly loam in the valley to a shallow rocky clay in the mountainous areas. The vegetation is mostly sagebrush and greasewood, with bunch grass providing grazing for cattle and sheep.</p> <p data-bbox="381 1736 1239 1809">The timber consists of juniper and pinon pine of little commercial value.</p> <p data-bbox="381 1838 1315 1938">An average number of readings along the lines surveyed gives a mean magnetic declination of 16° 00' E., with no noticeable change due to local attraction.</p>
