

TOWNSHIP 23 NORTH, RANGE 41 EAST, MDM, NEVADA

CHAINS

GENERAL DESCRIPTION

The land within Township 23 North, Range 41 East is about 5,100 to 5,900 ft. above sea level. The eastern portion of the township is high rolling land and the remainder of the township is nearly level land. The soil is sandy clay loam along the lower elevations and rocky on the high elevations. The land is covered with sagebrush and native grass. There are scattered stands of juniper in the southeast portion of the township.

Access to the area is provided by an improved gravel road entering the township in section 33 and leaving in section 2. There are numerous trail roads throughout the township.
