<hr/> <p style="text-align: center;">GENERAL DESCRIPTION</p> <p>The land within Township 39 North, Range 53 East is about 6,200 to 9,000 ft. above sea level and is rolling to mountainous. The soil varies from sandy clay loam at the lower elevations to rocky at the higher elevations. The vegetation consists of sagebrush and native grass. There are quaking aspen and scattered pine trees at the higher elevations.</p> <p>Creeks in Taylor Canyon and Water Pipe Canyon are two of the more prominent drainages and are located in the western portion of the township.</p>
