GENERAL DESCRIPTION

The land within Township 10 North, Range 36 East is about 5,100 to 6,100 ft. above sea level and is rolling to mountainous land. The soil is sandy clay loam in the lower elevations and rocky on high elevations. The land is covered with native grasses, Brigham tea, shadscale, rabbit brush, greasewood and sagebrush.

Finger Rock Wash drains northwesterly through section 31.

There was mineral exploration noted throughout the subdivision of the Township.
