

TOWNSHIP 2 NORTH, RANGE 42 EAST, MDM, NEVADA

CHAINS

The following field notes are those of the survey of Tract 41, Township 2 North, Range 42 East, Mount Diablo Meridian, Nevada.

The north, south, east and west boundaries and subdivisional lines were surveyed by U.S. Deputy Surveyors J. R. Glover and G. H. Perrin in 1881 under Contract No. 110. A portion of the north and east boundaries and sections 1, 2 and 12 were dependently resurveyed and Tracts 37 through 40 were surveyed by Cadastral Surveyor D. R. Beck in 1972 under Group No. 487. Other surveys remote to this area are not included.

In order to simplify the record, the true line notes only are supplied herewith, which refer to the completed survey.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated March 18, 1986.

The directions of lines of this survey were determined by azimuth taken from U.S.C. & G.S. triangulation stations "GOLDEN" and "DAVIS," as described in the field notes of the 1972 survey. The lines were carried forward by sustained angulation. The zenith angles of measurements made on the slope were ascertained by a theodolite in good adjustment; the horizontal equivalents only are entered in the field notes.

The geographic position for Angle Point No. 4, Tract 41, is at latitude $38^{\circ} 03' 19.3''$ N. and longitude $117^{\circ} 13' 25.6''$ W., as calculated along section lines from U.S.C. & G.S. triangulation station "BUTLER" located in sec. 2.

The mean magnetic declination was found to be 17° E.

SURVEY OF TRACT 41,
T. 2 N., R. 42 E., MOUNT DIABLO MERIDIAN, NEVADA

From Angle Point No. 1, Tract 41, identical with Angle Point No. 5, Tract 40, monumented with an iron post, $2\frac{1}{2}$ ins. diam., firmly set showing 4 ins. above ground, with brass cap mkd. as described in the field notes of T. 2 N., R. 42 E., executed under Group No. 487.
Remark the brass cap to read:

T2N		TR 40
R42E		AP 5
S 2		
AP 1		
TR 41		
		1973
		1986
