	GENERAL DESCRIPTION
ra an fr sa sc	The land within Township 40 North, Range 19 East, anges from about 5,600 to 7,000 ft. above sea level, and is gently rolling to mountainous. The soil varies from sandy clay to rocky. The vegetation consists of agebrush, bunchgrass and native grass. There are sattered juniper in the south and west portion of the ownship.
Cr	oulder Lake sets in sections 10 and 15, and Boulder eek, flows northwesterly through the township, raining into Boulder Lake.
Но	me Camp Ranch House, is located in section 27.
l in	incipal users of the area are cattlemen and access to the township is provided by numerous improved and improved desert trail roads.
	mineral formations of consequence were noted during e survey.
