TOWNSHIP 17 SOUTH, RANGE 66 EAST, MDM, NEVADA

CHAINS

GENERAL DESCRIPTION

The land within the confines of the survey in Township 17 South, Range 66 East, located just south of the Moapa Indian Reservation, is rolling desert land at about 2200 ft. in elevation. There are several washes draining northwesterly from higher elevations to the east. The soil is mostly rocky with sand and clay mixed, and the vegetation is mostly chaparral, creosote brush and cacti.

There is little access into this area and no improvements of note. No mineral formations of consequence were noted during the survey.
