

## TOWNSHIP 19 SOUTH, RANGE 61 EAST, MDM, NEVADA

CHAINS	GENERAL DESCRIPTION
	<p>The area resurveyed and surveyed within Township 19 South, Range 61 East, is situated on the northern edge of Las Vegas and North Las Vegas city boundaries. The land is mostly nearly level to gently rolling. The elevation varies from about 2,300 to 2,400 ft. above sea level. The soil is sandy throughout the township. Vegetation consists of creosote, shadscale, catclaw and cacti.</p> <p>The area is drained by Las Vegas Wash, which crosses through sections 6 and 7, draining southeasterly.</p> <p>Access into the area is provided by many streets and desert trail roads. A Nevada Power Company power line, crosses through the north portion of section 18, from E. to W.</p> <p>Two houses and a water tank are located in the western portion of section 19.</p> <p>No mineral formations of consequence were noted during the survey.</p> <hr/>
