38.378	True point for the C-S 1/16 sec. cor. of sec. 24.
<hr/> <p style="text-align: center;">GENERAL DESCRIPTION</p> <p>The area resurveyed and surveyed within Township 19 South, Range 60 East, is situated on the northern edge of Las Vegas and North Las Vegas city boundaries. The land is nearly level to gently rolling. The elevation ranges from about 2,300 to 2,400 ft. above sea level. The soil is sandy and gravelly throughout the township. The vegetation consists of creosote, shadscale, and cactie.</p> <p>The area is drained by Las Vegas Wash, which crosses through sections 1, 2, 3 and 4, draining east southeasterly.</p> <p>Access into the area is provided by many streets and desert trail roads. A Nevada Power Company power line, crosses east and west through the north tier of sections, turning south through sections 1 and 12, and leaving the township on the east boundary of section 13.</p> <p>No mineral formations of consequence were noted during the survey.</p> <hr/>
