

TOWNSHIP 42 NORTH, RANGE 22 EAST, MDM, NEVADA

CHAINS

GENERAL DESCRIPTION

The land within Township 42 North, Range 22 East, ranges from about 5,600 to 6,900 ft. above sea level, and is mostly rolling. The soil is sandy clay loam and rocky, and vegetation consists of sagebrush and native grass.

The southeast portion of the township is drained by Hanging Rock Canyon.

Nut Spring is located in section 2, Trough Spring and Miller & Lux Spring are located in section 9, Little Nut Spring is located in section 13, Mud Spring is located in section 18 and Sagehen Spring is located in section 24. There is a cabin located in section 25.

Access to the township is provided by numerous secondary and desert trail roads.

Principal users of the area are cattlemen.

No mineral formations of consequence were noted during the survey.
