## TOWNSHIP 4 NORTH, RANGE 52 EAST, MOUNT DIABLO MERIDIAN, NEVADA

CHAINS

## GENERAL DESCRIPTION

The area surveyed and resurveyed within T. 4 N., R. 52 E., is located approximately 10 miles E., of Warm Springs, NV. via State Highway No. 375. The terrain varies from mountainous to rolling, with elevations from 5,000 to 5,500 ft. above sea level. The soil is mostly sandy and very rocky. The vegetation consists of sagebrush and various cacti. There is a small stand of cottonwood in sec. 19, and greasewood which grows along the banks of Twin Springs Slough which meanders SE. through the Tp., and empty's into Echo Canyon Reservoir in secs. 33 and 34.

The only man made structures in the Tp. surveyed are located in sec. 19, and consists of a variety of corrals. The area can be accessed by Twin Springs road which is a county maintained dirt road located in sec. 19.
