## TOWNSHIP 37 NORTH, RANGE 54 EAST, MDM, NEVADA

CHAINS

## GENERAL DESCRIPTION

The land within the confines of this survey in Township 37 North, Range 54 East, located approximately 25 miles north-northwest of Elko, Nevada, ranges from 6,000 to 6,700 ft. above sea level. There are several washes which drain easterly from Lone Mountain located just west of the area. The soil is generally sandy clay loam with rocks. The vegetation consists of scattered sagebrush, rabbitbrush and native grass.

Access is gained to the area from Elko via Nevada State Highway No. 225, then westerly along trail roads. There are only a couple of trail roads accessing this specific area.

Principal users of the area are ranchers.
