

T. 20 S., R. 62 E., MOUNT DIABLO MERIDIAN, NEVADA

CHAINS

GENERAL DESCRIPTION

The area surveyed and resurveyed within Township 20 South, Range 62 East is rugged limestone hills in the easterly portion of the township and rolling in the westerly portion of the township with the elevation ranging from about 1,800 to 4,000 ft. above sea level. The soil is mostly sandy loam with some very rocky areas across the eastern part of the township. The vegetation consists of mesquite, creosote brush, Brigham tea, yuccas, shadscale and numerous cacti.

There are numerous trail roads that are extensions of major City of North Las Vegas streets and other cross country trails that provide access throughout the township. There are numerous developments in section 35.
