	Thence N. 0°04'10" W.,
	identical with a portion of line 4-1 of M.S. No. 5123, POPCORN No. 2 lode.
4.80	Improved gravel road, bears NE. and SW.
11.357	Cor. No. 1 of M.S. No. 5123, POPCORN No. 1 lode, and place of beginning.
	GENERAL DESCRIPTION
	The area surveyed in Township 16 North, Range 29 East, varies from mountainous in the west portion with the remaining portion being rolling. The elevation ranges from 4,100 to 5,400 ft. above sea level. The soil varies from sandy clay and rocky in the higher elevations to sandy and gravelly in the lower elevations. The vegetation consists of native grass, shadscale, rabbitbrush, cacti and Brigham tea.
	Access to the area is provided by U. S. Highway No. 95 which runs north and south through the area and by improved gravel roads and trail roads taking off from U. S. Highway No. 95.
	There is mining activity scattered throughout the area.
