

SUBDIVISIONAL OF SECTION 27,  
T. 20 S., R. 56 E., MOUNT DIABLO MERIDIAN, NEVADA

CHAINS	
39.52	Ravine, 20 lks. wide, drains S. 70° W.
39.927	The C-E 1/16 sec. cor. of sec. 27.
	<hr/>
	From the S 1/16 sec. cor. of secs. 26 and 27.
	S. 87°34'50" W., on the E-W center line of the SE1/4 of sec. 27.
19.358	The SE 1/16 sec. cor. of sec. 27.
36.30	Intermittent stream, 3 lks. wide, course S.
38.715	The C-S 1/16 sec. cor. of sec. 27.
	<hr/>
	From the W 1/16 sec. cor. of secs. 27 and 34.
	N. 0°04'40" E., on the N-S center line of the SW1/4 of sec. 27.
4.957	From this point, a rebar, 5/8 in. diam., firmly set, projecting 20 ins. above the ground, bears West, 0.293 chs. dist., with no mks. found.
4.959	From this point, a rebar, 1/2 in. diam., firmly set, projecting 3 ins. above the ground, bears West, 0.296 chs. dist., with plastic cap mkd. R.L. HAFEN RLS 4428.
7.459	From this point, a rebar, 1/2 in. diam., firmly set, projecting 3 ins. above the ground, bears West, 0.269 chs. dist., with plastic cap mkd. R.L. HAFEN RLS 4428.
40.513	The C-W 1/16 sec. cor. of sec. 27.

	GENERAL DESCRIPTION
	<p>The land encompassed in this survey is located near the south end of the Spring Mountains which separate the valleys of Las Vegas to the east from Pahrump to the west. The eastern boundary of T. 20 S., R. 56 E., runs roughly along the crest of a spur descending southerly from 11,000 ft. Griffith Peak to an elevation of approximately 6000 ft. at the southeast township corner separating Trout Canyon to the west from Lovell Canyon to the east. Section 27 is located at the mouth of Trout Canyon with the developed lands being on high ground and at the convergence with a smaller secondary canyon draining from the northeast. The wash draining these canyons runs from just east of the 1/4 section corner of sections 22 and 27 in a south-southwesterly direction to just west of the west 1/16 section corner of sections 27 and 34.</p> <p>The vegetation in the area is primarily sage, cacti, pinion pine, and juniper with areas of dense brush in section 27. The timber transitions to yellow pine, fir, and white pine, then finally bristle cone pines as one ascends to the summit of the high ridges.</p>
