CHAINS  3.609	<p>Continuing along the southeasterly edge of a gravel access road.</p> <p>Angle Point No. 5, on the E-W center line of the SE1/4 of the SW1/4 of the NE1/4 of sec. 2, hereinbefore described.</p> <hr/> <p style="text-align: center;">GENERAL DESCRIPTION</p> <p>The area surveyed within T. 4 S., R. 60 E., sec. 2, lies in the northerly extremes of the Pahrnagat Valley. The terrain varies from mountainous in the east portion to nearly level in the central portion with the remaining terrain being gently rolling. The elevation ranges from about 3,900 to 4,700 ft. above sea level. The soil varies from sandy clay loam and rock on the higher elevations to clay loam on the bottom land. The native vegetation is primarily sagebrush. A portion of the bottom lands are currently irrigated croplands. The surveyed area is located approximately one mile north of the community of Hiko Nevada. This historical community was once the county seat of Lincoln County. Today all that remains are a cemetery, a stone building and a small number of homes.</p>
